

UNITED STATES DEPARTMENT OF AGRICULTURE

SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

APRIL 1938

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year (foreign, 60 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICES REGARDING MEAT INSPECTION**ANIMAL CASINGS OF FOREIGN ORIGIN**

Certificates required by B. A. I. Order 305 and instructions issued thereunder, which bear the official title of the high official of the foreign country as specified below, will be acceptable with animal casings offered for importation into the United States.

The certificates must also bear the signature of the high official of the national government having jurisdiction over the health of animals in the foreign country in which the casings originate, but owing to the fact that the high officials are changed from time to time it is impracticable to publish their names.

*Official title**Foreign country*

Secretary of Agriculture and Development..... Mexico.

The notice in Service and Regulatory Announcements of June, 1928, is hereby revoked insofar as the certification of animal casings from Mexico is concerned.

DISPOSAL OF PARTS AND RESIDUES OF MEAT-INSPECTION LABORATORY SAMPLES

All samples of meat or product and all substances used in the preparation thereof, which are collected or submitted for laboratory examination or inspection, and all parts or residues of such samples, shall be destroyed for food purposes when laboratory examination and inspection are completed, except that—

(a) Parts and residues of samples may be retained in the laboratory for reference.

(b) When a sufficient quantity of any sample remains on hand after laboratory procedures have been completed and such portion is fit for human food or for use in connection with the preparation of foods, such remaining part or residue may be returned to the establishment, importer, or other person or concern from whom the sample was collected or received.

(c) Parts and residues of samples which are fit for human food or for use in preparing human food or for other purposes, and not desired by interested establishments, importers, or other persons concerned, may be delivered to charitable institutions.

Parts and residues of samples shall not be appropriated for personal use by any Bureau employee, or sold or given away by any Bureau employee, or otherwise disposed of except in accordance with the foregoing instructions.

LICENSES ISSUED FOR BIOLOGICAL PRODUCTS, MARCH 1938

License No. 4 was issued March 8, 1938, to The Abbott Laboratories, Fourteenth Street and Sheridan Road, North Chicago, Ill., for tetanus antitoxin.

License No. 117-A was issued March 31, 1938, to O. M. Franklin Serum Co., 109 North Monroe Street, Amarillo, Tex., for: Avian mixed bacterin; blackleg bacterin; bovine-abortion vaccine; bovine-hemorrhagic-septicemia bacterin; bovine-keratitis mixed bacterin; bovine mixed bacterin; bovine-pulmonary mixed bacterin; calf-scour mixed bacterin; equine-abortion mixed bacterin; equine-hemorrhagic-septicemia bacterin; equine-influenza mixed bacterin; fowl-cholera-typhoid bacterin; fowl-typhoid bacterin; hemorrhagic-septicemia bacterin (ovine); hemorrhagic-septicemia bacterin (swine); mastitis bacterin (bovine); ovine ethyma vaccine; ovine mixed bacterin; roup bacterin; swine mixed bacterin; swine-pulmonary mixed bacterin.

LICENSE TERMINATED, MARCH 1938

License No. 117-A, issued February 25, 1937, to The O. M. Franklin Blackleg Serum Co., Second and Monroe Streets, North, Amarillo, Tex., was terminated March 31, 1938, because of the discontinuance of production of avian-hemorrhagic-septicemia bacterin and a change in firm name.

LICENSE ISSUED FOR BIOLOGICAL PRODUCT, FEBRUARY 1938

License No. 6-A was issued February 26, 1938, to Pitman-Moore Co., Division of Allied Laboratories, Inc., near Zionsville, Ind. (mailing address, 1220 Madison Ave., Indianapolis, Ind.), for antienteritis serum (canine).

PERMIT ISSUED FOR BIOLOGICAL PRODUCT, MARCH 1938

Special permit was issued March 12, 1938, to Dr. E. A. Watson, Animal Diseases Research Institute, Hull, Quebec, Canada, to import into the United States one shipment of intradermic tuberculin.

PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket No. 477.—*In re Wilmington Provision Co., Inc.*, Wilmington, Del. The Acting Secretary of Agriculture on October 21, 1935, issued an inquiry alleging that respondent had engaged in an unfair, unjustly discriminatory, and deceptive practice and device in commerce; had made and given in commerce an unreasonable and undue preference and advantage to a particular person, The Great Atlantic & Pacific Tea Co.; and had subjected to an unreasonable prejudice and disadvantage in commerce persons who purchase meats and meat food products through the tea company's representative from respondent, in that respondent between September 21, 1934, and the date of the complaint had paid, refunded, and remitted to the tea company an amount of money equal to one, two, or three per centum, or a substantial part thereof, of the purchase price of meats and meat food products purchased by the tea company through its representative. A hearing was held on December 5 and 6, 1935. Subsequent to the hearing, oral argument was had before the Secretary of Agriculture and respondent was afforded an opportunity to file a brief. The respondent's brief was not received by the Department of Agriculture until after the examiner's report had been issued. However, the brief, as well as the exceptions of the respondent, have been considered. On April 15, 1938, respondent was ordered to cease and desist from the unfair, unjustly discriminatory, and deceptive practice and device of either directly or indirectly refunding or remitting brokerage fees to any buyer of meats and meat food products while the respondent is at the same time paying brokerage fees on sales to other buyers without directly or indirectly returning such fees to them, thereby discriminating against and subjecting them to an unreasonable prejudice and disadvantage.

Docket No. 921.—*In re Ed. Terman & Co.*, Chicago, Ill. The Acting Secretary of Agriculture on August 17, 1937, issued an inquiry alleging that respondent

had engaged in and used certain unfair, unjustly discriminatory, and deceptive practices and devices in connection with the handling of live poultry in commerce. A hearing was held on September 14, 1937. The examiner's report was served upon respondent which filed exceptions thereto. The case was set for oral argument before the Acting Secretary of Agriculture in Washington, D. C., on February 24, 1938. Respondent requested that the oral argument be held in Chicago. This request was denied and respondent was given an opportunity to file a written argument before March 10, 1938, but no such argument was filed. On the basis of the record, the examiner's report, and the exceptions, the Acting Secretary on April 18, ordered respondent to pay to R. T. Leach reparation in the amount of \$850.15, with interest at the rate of 6 percent per annum from April 23, 1937, until paid; to cease and desist from the unfair and deceptive practices and devices alleged in the complaint; and that the license of respondent be suspended for a period of 6 months.

Docket No. 979.—In re Ireland-Strain Livestock Commission Co. v. Peoria Union Stockyards Co., Peoria, Ill. This is a complaint filed by Ireland-Strain Livestock Commission Co. on September 20, 1937, against the Peoria Union Stockyards Co., alleging that the respondent would not recognize it as a market agency and refused to deliver to it certain livestock consigned to the complainant at the Peoria Union Stockyards. A hearing was held on November 20, 1937. Following the hearing respondent submitted an extensive brief citing authorities in support of the position which it took in this case. The examiner prepared a report which included a summary of the evidence, findings of fact, and recommended order. A copy of this report was served upon the parties on March 3, 1938, and they were given 20 days in which to file exceptions. Respondent submitted a list of exceptions and stated that it did not care to make oral argument before the Secretary. The complainant did not file any exceptions. Upon the basis of the record the Acting Secretary of Agriculture on April 18, dismissed the case.

Docket No. 1055.—In re Levin Brothers, Inc., v. Brooklyn Poultry Commission Co., Inc., Brooklyn, N. Y. On September 28, 1937, Levin Brothers, Inc., a licensee under the provisions of the Packers and Stockyards Act, filed a complaint with the Department of Agriculture, alleging that complainant sold a load of fowl to defendant at and for the price of 25 cents per pound net, which load was delivered to defendant and defendant remitted on the basis of 24 cents a pound for the entire shipment. A hearing was held on February 8, 1938. A copy of the examiner's report was served on each of the parties but no exceptions were filed. The amount of poultry shipped to and received by the defendant amounted to 7,893 pounds of fowl, which was sold at and for 25 cents per pound. The defendant is therefore indebted to the complainant in the amount of \$78.98. On April 19 the Acting Secretary of Agriculture ordered the defendant to pay complainant the above-mentioned sum as reparation for damages sustained by complainant.

Docket No. 1081.—In re Armour & Co., Chicago, Ill. The Acting Secretary of Agriculture issued a complaint and notice of hearing on February 23, 1938, alleging in substance that Armour & Co. had violated title II of the Packers and Stockyards Act, in that it received at its branch house at 823 Fulton Street a consignment of live poultry on which it charged 1 cent a pound commission and which it sold for 1 cent a pound more than the price of the account sale to the shipper. One cent a pound extra is due to the shipper as the respondent is not entitled to a profit and a commission on the same transaction. As the respondent has discontinued the handling of live poultry at the above-mentioned branch house and has satisfied the claim of the shipper, the case was dismissed on April 19, 1938.

Docket No. 1082.—In re Platte Valley Livestock Commission Co., Scottsbluff, Nebr. The Acting Secretary of Agriculture on February 23, 1938, issued an inquiry and notice of hearing alleging that respondent had violated the Packers and Stockyards Act in that it had engaged in an unfair, unjustly discriminatory practice and device in the buying and selling of livestock in interstate commerce by failing to furnish a reasonable bond to secure its obligations as a market agency and dealer. On March 15 respondent acknowledged service of the order of inquiry, admitted the truth of the matters and things alleged, and waived a hearing thereon. On April 18 respondent was ordered to cease and desist from the unfair practice of engaging in business as a market agency and dealer without executing and maintaining a bond or other satisfactory form of indemnity to cover its financial obligations.

Docket No. 1086.—In re Fred William, Chicago, Ill. The Acting Secretary of Agriculture on February 25, 1938, issued an inquiry alleging that respondent was not entitled to a license to buy, sell, and handle live poultry in commerce because the information submitted with its application was insufficient to show that it was financially able to fulfill the obligations that it would incur as a licensee. A hear-

ing was held on March 15, 1938. The evidence adduced at the hearing disclosed that respondent had prior to the hearing ceased to handle live poultry. Therefore, on April 22, the case was dismissed.

Poultry License Orders

Hearings have been held to allow applicants for licenses to buy, sell, and handle live poultry in commerce an opportunity to show cause why their applications, made under title V of the Packers and Stockyards Act, should not be denied. Modification of Rates in Docket No. 298

The St. Joseph Stock Yards Co., respondent in the above-entitled case, on March 1, 1938, petitioned the Secretary of Agriculture for a temporary modification of his orders of May 4, 1934, and August 14, 1936, prescribing schedules of rates for services rendered by respondent at its stock yard at South St. Joseph, Mo., due to the decreased receipts of livestock at respondent's yards and a consequent reduction in the revenue from yardage and from all other operations considered by the Secretary. The facts submitted by petitioner have been checked by a Government accountant whose report substantiates the statements submitted by the petitioner. On April 13, 1938, the Secretary issued an order modifying his order of May 4, 1934, providing a new set of rates and charges for yardage, feed, and bedding.

Modification of Rates in Docket No. 402

In re C. H. Acker & Co., et al., Chicago, Ill. Pursuant to the provisions of the Packers and Stockyards Act, the Secretary of Agriculture issued an order in the above-entitled case on March 12, 1934, prescribing reasonable rates and charges to be observed by respondents for their services as market agencies. The above-mentioned order was modified by further order of the Secretary dated March 11, 1937, effective April 1, 1937. The petitioner, the Chicago Producers Commission Association, alleges that substantial changes have occurred since the date of the order of modification in practically all of the costs affecting its business, and asks that the order be further modified. The petition, information and stipulation have been considered. Subject to the conditions set forth in the stipulation, the order of March 12, 1934, as modified by the order of March 11, 1937, was modified April 22, 1938, providing for a new set of rates and charges for buying and selling livestock at the Chicago market.

Stockyards Posted

During the month of April 1938, the following stockyards were posted as coming within the jurisdiction of the Packers and Stockyards Act:

Greater Little Rock Stock Yards, Inc., North Little Rock, Ark., April 12.
Ellington & Cook Livestock Commission Market, Alexandria, La., April 19.

Stockyards Withdrawn From Jurisdiction

Morgan County Livestock Auction Co., Fort Morgan, Colo., was withdrawn from the jurisdiction of the Packers and Stockyards Act on April 18, 1938.

OFFICIAL DUTY ON HOLIDAYS

Personnel Circular No. 63, dated April 25, 1938, a copy of which has been sent to each field station, cites several instances where field stations of the Department have interpreted Personnel Circular No. 56, which was printed on page 39 of Service and Regulatory Announcements for March 1938, entirely too liberally and have released employees on the mere excuse of a local holiday or celebration. The last paragraph of Personnel Circular No. 63 shows very clearly the test to be applied when the question of whether or not personnel should be excused should be answered. It reads as follows:

"Unless local celebrations or observances of holidays involve the closing of buildings occupied by Department organizations, or the withdrawal of other facilities essential to the performance of official work, such occasions do not constitute acceptable justification for the excusing of the personnel."

INSTRUCTIONS CONCERNING PROBATIONARY APPOINTEES

1. The following instructions will supersede those published on page 44 of Service and Regulatory Announcements for April 1936 relating to probationary appointees.

2. Each probationary appointee should be fully instructed, and his or her work and conduct sufficiently observed and supervised to note the appointee's qualifications, aptitude, interest in the work, and deportment. The appointee must be given full opportunity to demonstrate fitness for a permanent position. The attitude of the instructor toward the probationary appointee must be one of helpfulness and patience. In the event the appointee, after a fair tryout, shows demerit, incapacity or deficient deportment which is convincing that for the good of the service he or she should not be retained in the position, a letter report with recommendation should be forwarded to the Bureau, regardless of the length of time the appointee has served.

3. When recommendation is made that an appointee be retained on a permanent basis, a concise but definitely informative statement should be made on Standard Form No. 17. The statement should not be in stereotyped form or in generalized language, but should be descriptive of the qualifications, attitude, deportment, and prospective value to the Bureau of the person.

4. When recommendation is made that an appointee be not retained on a permanent basis, a definitely informative statement should be made by letter or on Standard Form No. 17, if at hand, specifying the appointee's shortcomings along with mention of any creditable qualities the appointee may possess. The report must show that the inspector in charge or other directing officer has fully instructed the appointee regarding his or her duties, that unsatisfactory work and deportment have been brought to the attention of the appointee, and that the appointee has had a fair trial to demonstrate his or her worthiness for the position.

5. In recommending a probationary appointee for permanent appointment, it is important that inspectors and others in charge consider carefully the after effect on the service if inefficient or unprincipled persons are accepted. The intent of the probationary period is to afford means for tryout of new appointees in order that only worthy persons may be selected for permanent appointment. It should be kept in mind that each report rendered to the Bureau concerning the worth of a probationary appointee should be correctly informative regarding the efficiency of the person for the position.

DR. JOHN M. BUCK DIES

Dr. John M. Buck, Superintendent of the Bureau's Animal Disease Station at Beltsville, Md., died suddenly on May 2 from an apoplectic stroke. He was 59 years old.

Dr. Buck entered the service of the Bureau in 1907 as a veterinary inspector at Chicago, Ill. Shortly afterward he was transferred to similar work at Kansas City, and 2 years later he was assigned to research work in the Pathological Division of the Bureau at Washington, D. C. Here he performed research work and other duties involving the preparation of blackleg vaccine, diagnostic work in connection with glanders, and the complement-fixation method of diagnosing dourine.

In 1916, when Congress authorized funds for a vigorous attack on Bang's disease, Dr. Buck was assigned to the study of this problem. In 1928 Dr. Buck was made assistant superintendent of the animal disease station and after the retirement of Dr. W. E. Cotton, superintendent, in September 1937, Dr. Buck succeeded him. Dr. Buck was the author of many publications and scientific articles on veterinary subjects.
